Docket Nos. D.T.E. 02-24/25
Responses to the Department's Seventh Set of Information Requests

Request No. DTE 7-6 (Electric):

Refer to the Company's response to Information Request DTE 4-10. With respect to the Pretax Utility Operating Income associated with Energy Efficiency, explain the meaning and justification the application of "earned incentives of \$164,994" and "lost base revenue of \$241,950."

Response:

With respect to the Company's response to Information Request DTE 4-10, Energy Efficiency Pretax Utility Operating Income includes earned incentives of \$164,994 related to DTE-approved shareholder incentives for the successful implementation of energy efficiency programs during 1998 and 1999. The figure of \$241,950 was incorrectly labeled as "lost base revenue" in response to Information Request DTE 4-10. The amount should have been labeled "estimated shareholder incentive" for the implementation of energy efficiency programs for 2000 and 2001.
